Final Camera-ready Paper

TOPICS OF INTEREST

The IEEE RAICS 2025 - 7 th International Conference on Recent Advances in Intelligent Computational Systems is the flagship conference of IEEE Kerala Section and a forum for researchers in the field of intelligent computational systems. IEEE RAICS 2025 will be driven by the theme "Sustainable Computing for Digital Future" which aims to emphasize the importance of designing energy-efficient, environmentally responsible, and socially inclusive computing technologies to shape a sustainable digital world. RAICS 2025 will be an in-person event and authors are expected to be onsite to present their works.

Collecting contributions in all areas of Sustainable Computing for Digital Future, including but not limited to:

- Energy-Efficient Computing and Architectures
- Sustainable Artificial Intelligence and Machine Learning
- IoT, Edge, and Cyber-Physical Systems for Sustainability
- Quantum and Neuromorphic Computing for Sustainability
- Cloud Computing, Blockchain, and Decentralized Systems
- Computational Intelligence for Renewable Energy and Climate Action
- Materials and Systems for Sustainable Computing

Venue

IEEE RAICS 2025 will be conducted at Maker Village, Cochin, Kerala. Maker Village is the largest hardware incubator in India.

About Kerala

Kerala, known as the "God's Own Country," is a beautiful state in southern India known for its lush greenery and tranquil backwaters. It has a rich cultural heritage, vibrant traditions, and is celebrated for its classical dance forms like Kathakali and Mohiniyattam. With high literacy rates and a focus on sustainable tourism, Kerala offers a unique blend of natural beauty, cultural richness, and progressive development.
